The News of the Morning.

We have some further advices from Mexico this morning. Another Revolution is in full blast, and Comonfort, so recently placed at the head of the government, by general consent, seems likely to be deposed and driven from the country.

We hear from Kansas that the Administration Viceroy, Mr. CALHOUN, has rejected enough Free State votes to secure the apparent election of the Pro-Slavery, or "National Democratic" candidates. This, no doubt, is in accordance with his views of "Popular Sovereignty."

A sad accident occurred at Adrian, Michigan, on Monday; two men, with their wives, being drowned, while crossing a small lake on the ice.

The Legislature, after its brief resting spell, got together again, yesterday, and did a good days's work.

No change in the Eastern, or home market, yesterday. Weather dull and unsettled, with symptoms of a change.

MESSRS. EDITORS:—Pray oblige a subscriber by publishing a list of the present Directors of the Milwaukee and Mississippi R. R. Company, and the day fixed for the Annual Election.

Yours truly,
A STOCKHOLDER.

BOSCOBEL, Jan. 23, 1858.

(The following, we believe, is a correct list of the Directors of the M. & M. R. R.:—E. H. Brodhead, E. B. Wolcott, A. Eldred, E. D. Holton, G. H. Walker, A. Finch, of Milwaukee; E. D. Clinton, Waukesha; B. Dunwiddie, Monroe; J. Goodrich, Milton; E. L. Dimmock, Janesville; F. C. Tibbitts, J. Catlin, Madison; N. Dewey, Lancaster; H. L. Dousman, E. W. Pelton, Prairie du Chien; J. O. Wright, Schenectady, N. Y.

One vacancy exists in the Board, that of H. Cocker, of Milwaukee, who resigned last February, and whose place has not since been filled. The Annual Election takes place in this city, at D A. M., on Tuesday, February 9th.

ED. SENTINEL.)

CHICAGO, ST PAUL & FOND DU LAC R. R.—The earnings of the Chicago, St. Paul and Fond du Lac Railroad for the three months ending with December, were as follows:

October, . . .	$50,805 75
November, . . .	39,908 69
December, . . .	26,313 67
Total, . . .	$116,028 11

The road has 120 miles in operation. The expenses are estimated at 45 per cent. on the receipts.

THE WEATHER IN CANADA.—The Chatham *Planet* says: "Not only have pansies been seen in full bloom in this town during the present month, but Mr. R. K. Payne informed us that on 14th inst. strawberry vines were in blossom in the open air in his garden. Up to the time we write we have no snow and very little frost."

FIRE AT CHICAGO.—A fire occurred on Clarke street Chicago, on Saturday night, destroying five small buildings. Loss about $6,000 on which there is considerable insurance.

Doings of the Legislature.

A sufficient number of members to form a quorum could not be called together in the Assembly Chamber at 8 o'clock this afternoon, and no session of that body was held. Adjourned over to 10 A. M., of to-morrow.

The Senate met, twenty members being present, and went to work. A resolution was introduced by Mr. Cook, calling upon the Secretary of State for a report of the number of inhabitants and the amount of taxable property of each county in the State. Mr. Simpson, a resolution authorizing an inquiry into the geological survey, (a subject that requires investigating;) Mr. Wheeler, a resolution calling for a convention to revise the constitution; Mr. Smith, a resolution providing for the publication of 1,000 copies of the Governor's message in the Welch language.

These resolutions were all laid over.

Mr. Sutherland introduced a bill "to extend the time for the collection of State taxes for the year 1858." This bill was debated at considerable length, under suspension of the rules.

Mr. Cook gave notice that on some future day he would introduce a bill for an act to alter the charter of each railroad company within this State, organized and doing business under its charter, which shall fail to pay either the interest or principal specified in private farm mortgage bonds, at any time taken or received by any such corporation from any inhabitant of this State, and in any way or manner assigned or transferred by such company to any person, party or corporation whatever, in such a manner as to grant proper power on sufficient facts appearing, for appointment of Trustees to take and control the management of the business and affairs of the Road of such company until the net earnings thereof shall be sufficient to pay all such mortgage bonds after the payment of all prior liens.—*Madison Argus, Jan. 25.*

Later from Kansas.

ST. LOUIS, Jan. 26.

A gentleman from Leavenworth, Kansas, on the 20th inst., who arrived yesterday, reports having travelled from Weston to St. Boonsville, in company with a messager bearing dispatches from Calhoun to members of the Cabinet at Washington, the tenor of which, as derived from the messenger, is that Calhoun rejected the returns which were sent to Gov. Denver, instead of himself, on the ground that in accordance with the Lecompton schedule, they are illegal, and therefore void. This gives the State Officers to the democrats; also one majority in the Council, and two in the House.

Mr. Storer, democratic member of the Legislature, had been shot in the stage between Wyandotte and Lawrence. He would probably die.

Henderson was still in custody at Lawrence.

CITY MATTERS.

MEETING OF THE COMMON COUNCIL.—THE HARBOR.—On Monday night the Common Council held a special meeting to consider the Report of the Harbor Committee. Aldermen Gotzhausen, Grenlich, Hayden, Seaman and *Taylor* were absent.

Before the report was read, a number of accounts and petitions were presented and appropriately referred.

The report of the Fire Department was presented by the chair and ordered placed on file.

The map of Curtiss Addition in the 9th Ward was presented and referred to the Committee on plats.

The Finance Committee reported that they had examined the statement of the Comptroller in relation to account of W. Schalk & Co. N. Y. of the disposition made of City Bonds &c., and found the same correct. Report concurred in.

A resolution was adopted in accordance with a report of the Finance Committee recommending the issue of two city orders to S. M. Booth for two orders which he had lost, on condition of his giving security for the same.

Alderman Prentiss presented a time table for lighting and extinguishing the public lamps in the city for the year, and recommended the printing of 100 copies of the same upon card board, the cost not to exceed $18. Alderman Prentiss also offered a resolution to this effect which was adopted.

Alderman Hadley, Chairman of the Joint Committee, consisting of the Harbor and Finance Committees, to whom had been referred the petition and account of Mr. Hasbrouck, for constructing the 1st, 2d and 3d sections of the Straight Cut Harbor, and requesting a settlement for the same, reported the following, which we publish in full, as we think it will be interesting to many of our readers; giving, as it does, an official history of the work done from its commencement, and expenditures upon this important improvement:

It was the wish of several members of the Council to have time to deliberate upon this report, and have it go before the people before adopting the recommendations of the Committee—and it was therefore laid over for one week:

The Joint Committee, consisting of the Harbor and Finance committees, to whom was referred the city engineer's estimates for the materials furnished and used in the construction of the 1st, 2d and 3d sections of the harbor at the Straight Cut, and the petition of Isaac A. Hasbrouck, praying the Common Council to settle for the same, respectfully report that, on the 9th day of May, 1854, the city contracted with Abel Hawley to furnish all materials and construct this Harbor for the sum of forty-eight thousand nine hundred dollars, ($48,900,) payable in city bonds at their par value; that under this contract Hawley commenced the work, doing considerable dredging, and procured materials and began the construction of the cribs in the manner specified in the plan adopted by the city, and known as the "City Plan;" and Mr. Hawley received from the city during the summer and fall of 1854, and endorsed on his contract now on file in the city clerk's office, twenty-one harbor bonds of one thousand dollars each, making an aggregate of $21,000. In July, 1855, Mr. Hawley, with the assent of the Common Council, assigned his contract to Col. C. D. Barton, and the city agreed in a contract with Col. Barton, dated July 31, 1855, to give him an additional amount of $10,100, payable in city bonds, making an aggregate of fifty-nine thousand dollars, which the city agreed to give Mr. Barton for doing what Mr. Hawley contracted to do for forty-eight thousand nine hundred dollars, Mr. Barton to receive an estimate for all the work done by Mr. Hawley, and to account to the city for all the bonds issued to Mr. Hawley on his harbor contract.

Till into August, 1855, the contractor continued to construct the work on the plan of the city. On the 6th of August, and before any cribs had been set by him, the Council abandoned the city plan of the work and adopted that of the U. S. Government, and the contractor was desired to construct the work on the government plan, and the city engineer was directed to make his estimates accordingly. This virtually abandoned the original contract, so far as the amount named therein for completing the work was concerned, and the city engineer was directed to estimate at cash prices for each specific item of materials furnished and used in the work, and the Common Council paid the contractor upon such estimates of the city engineer, which are now on file in the office of the city clerk. And this joint committee believe that the city has secured a far better, more perfect and durable harbor, by thus paying for each specific item in the work, than could have been obtained in any other way of estimating and paying. By this method the city pays only for the labor performed, and for the actual amount of materials furnished and used in the work, and nothing more.

Col. Barton received from the city thirteen harbor bonds, of one thousand dollars each, in the months of October and December of 1855.

In January 1856, Col. Barton died, and with his effects his contract or agreement with the City to construct the Harbor, passed into the hands of his administrators, and was, by them, assigned, with the assent of the City, to Isaac A. Hasbrouck, who has constructed the work in the most substantial and workmanlike manner, upon the Government plan, under the daily inspection and supervision of the City Engineer, and has from time to time, during the years 1856 and 1857, received from the city and receipted for the same, seventy-four harbor bonds of one thousand dollars each, making the aggregate amount of Harbor bonds issued to Hawley, Barton and Hasbrouck one hundred and eight thousand dollars.

Mr. Hasbrouck now presents a certified statement of the City Engineer, including therein all estimates given by him for the materials furnished, and used, and the work done in constructing the first three sections of this Harbor. (The Chairman of the Committee has not the estimates in detail.)

In Mr. Hasbrouck's account rendered against the city, the amount of materials furnished and used in this harbor work, agrees with the several amounts stated by the City Engineer, except for a part of the stone, and for 75,341 cubic yards of dredging for which the Engineer fixes no price, but stated in his judgment must have cost the contractors 50 cents per cubic yard.

Mr. Hasbrouck makes his charges at cash prices and accounts to the City for the 21 bonds issued to Mr. Hawley, at their par value, for the 18 issued to Col. Barton at 80 per cent, and for the 74 issued to himself at 78 per cent. those being the prices realized on the sale of the last mentioned bonds.

The amount of his account for the first three sections of the Harbor, including the dredging and removing from the middle ground of the river in front of the Harbor and below Walker's Point bridge, of 13,548 cubic yards of earth, charged at 33 cents per cubic yard, and the discount on 87 bonds, is $134,274,33 from which he deducts at their par value, 108 bonds of one thousand dollars each, which includes the 21 issued to Hawley, 18 issued to Barton and 74 issued to himself; and this amount of 108 bonds agrees with the Comptroller's statement herewith presented, of the whole number and amount of bonds issued to Hawley, Barton, and Hasbrouck on this work, leaving a balance due Mr. Hasbrouck at this date, according to his account of $76,284,33.

The Joint Committee have made a careful investigation of this matter, and taken every means to ascertain the equities in the case, and the result is, that in their judgment, taking all the circumstances into consideration, the delays, and hazards occasioned by the elements in that exposed position, and the fact that our 2,000 cubic yards of dredging have been done in setting the cribs, and from between the piers, for which no estimate was ever made, and which cannot consistently be allowed by the engineer, as his soundings were made and given as he found the bottom of the Lake before the commencement of the work, and the estimates are made and now given as found after the work is completed; allowing nothing for the dredging out or running of the sand and earth that slid and washed into the Cut from beyond the outer line of the cribs, while the excavations were being made for their setting; that the balance claimed by Mr. Hasbrouck is not unreasonable, and should therefore be allowed and paid by the city.

The Committee are aware that this harbor has cost a large amount, but they have the satisfaction of knowing, that the City can now boast of the best, the safest and most capacious Harbor, which is the most easy of ingress and egress of any on the whole chain of Lakes.

It has been pronounced by Col. Graham, a model work of the kind, and so reported to the Department at Washington, which is a compliment worthy of the liberality of the City in the construction of this great work. As no one is more competent to judge of a work of this kind than Col. Graham, and no individual opinion in relation to the quality of this work is entitled to more respect.

Our rapidly increasing commerce will now be accommodated with ample facilities, and the permanent wealth and prosperity of the City be enhanced by reason of the construction of this Harbor.

It is a permanent work, designed to last for years, and having been constructed upon the most improved plan of the Government, for Harbor work on our Lakes, it is confidently believed that with the proper efforts being made, the City will before the maturity of the bonds issued to construct it, be reimbursed by the United States Government for the whole expenditure.

Mr. Hasbrouck offers to take one hundred Harbor bonds of one thousand dollars each in full settlement of the balance claimed by him, and the Committee believing that our City Bonds are worth even in these times 80 per cent, recommend that ninety five Harbor Bonds of one thousand dollars each be issued to Isaac A. Hasbrouck, and a City order be issued to him for two hundred and sixty four and 33-100 dollars, in full for the balance claimed by him for the construction of the 1st 2d and 3d sections of the Straight Cut Harbor, and for this purpose the Committee report herewith an ordinance to authorize the issue of City Bonds to Isaac A. Hasbrouck, to settle with him for the construction of the same; and recommend its passage.

This report is signed by the following members of the Finance and Harbor Commitees:

EBERD. KUEHN,	J. HADLEY,
GEO MALLORY,	D. C. REED,
J. HADLEY,	GEO. MALLORY,
A. MCCORMICK,	FRED. KUEHN,
Finance Committee.	S. WERGEN,
	A. MCCORMICK,
	C. G. LOEFFLER,
	Harbor Committee.

In addition to the report, Alderman Hadley read a statement from the Comptroller of the whole number and amount of bonds issued for the harbor improvement, which agreed with the account of Mr. Hasbrouck. He also read the estimates of the City Engineer, under whose immediate supervision the work had been done.

After the reading of the report, Alderman Johnson objected to that part allowing 60 cents per yard for some of the dredging.

The Chairman accounted for this, by explaining at considerable length, the nature of the work. The dirt had to be carried considerable distance upon scows, and the ground, which had to be dug, was unusually hard, and mixed with it there was a great deal of large stone; and he also stated that the Committee had used every exertion to ascertain the value of the work done.

Alderman Plankington did not understand how the city could have paid so much as it already had according to the original contracts. He alluded to the first contract with Hawley to do the work for $48,000, and the subsequent assigning of the contract to Col. Barton and a new contract to carry out Hawley's for 50,000, and now the city had already paid about $150,000; yet the work was not completed, and he thought the people should understand what they had received for the difference between $50,000 and $150,000 which had been paid, before issuing more bonds.

Alderman Hadley said the gentleman must take into consideration that the outer or Lakeward section was constructed entirely independent of the original plan, at the request of the Board of Trade and business men of Milwaukee, and had been paid for by the city, which the gentleman had included in his estimate.

Alderman Plankinton thought the matter should be thoroughly investigated and understood by the people before the Council took any action upon the report of the committee, he would therefore recommend that the report and ordinance be laid over for one week.

Alderman Hadley here went back and reviewed the history of the whole work, and represented the unanimity of opinion of the Press and the community generally, in regard to the matter, and urged that the Council ought to settle with the present contractor without putting him to further delay.

Alderman Plankinton renewed his motion to lay the matter over, and Alderman Johnson was also in favor of Ald. Plankinton's motion, which was carried by a vote of 12 to 9.

The Council then adjourned to next Monday.

ROBBERY AND BOLD ATTEMPT OF A ROBBER TO ESCAPE.—On Monday afternoon, a shanty, on Palmer and Co's. addition, occupied by a man named Mosely, was entered while the occupants were out, and robbed of various articles. The thieves entered through a window, and carried away what they could find of value. Towards evening, policemen Hannon and Just learned that a man named Samuel Colton was suspected as being one of the robbers, and after dark they went to the place where they expected to find him, a low gregory, not far from where the robbery was committed, near the brick kilns on the M. & M. R. R. On seeing the policemen approach, Colton came out of the front door, and stood lookin at them a minute or two, and then becoming satisfied,— we presume—that they were after him, he started and ran as fast as he could, trying to evade the officers by secreting himself behind another shanty. They were too close, however, to lose sight of him again. Colton put out on a dead run this time for a place on the Menomonee river where there is a small boat used as a ferry, closely pursued by the two policemen, and just as he was about pushing off the boat in his hurry, he tumbled into the river, and seeing his pursurers coming up on his track ready to grab him, he put out and swam towards the opposite shore, although his course was considerably impeded by the floating ice. When he got nearly over, however, he was in a bad fix for their was a sheet of ice, nearly twelve feet wide, projecting from the bank. He made several attempts to get upon it but failed, as the ice rather inclined towards the water. The policemen were on the other side the river, the boat having drifted down the stream, and as there was no bridge close by they could not render him immediate assistance. They urged him to swim back and surrender himself, but he prefered to take the chances and hang on to the ice, making every effort he possibly could to get up. While he was thus struggling, officer Hannon went round some distance and got across the river, and left Just to watch Colton, so that he could not escape by swimming back. When the policeman came up on the opposite side the river, Carlton had just succeeded in breaking his way through the ice, and got upon the bank, but he was unable to run any further having been in the water about 20 minutes. He surrendered himself and was taken to the station house by the police. He assured them that if it had not been for the ice they would never have caught him.

THE CHESS MATCH.—As there was some obscurity in the moves, published in yesterday's *Sentinel*, in the Match Games, now pending between the Madison and Milwaukee Chess Clubs, we append the Games, as they now stand, and will add, from day to day, the moves that are made:

FIRST GAME.

Milwaukee (*White.*)	Madison (*Black.*)
1. P to K 4.	1. P to K 4.
2. K Kt. to B 3.	

SECOND GAME.

Madison (*White,*)	Milwaukee (*Black.*)

DEAD.—We learn, with sincere regret, that JOHN B. EDWARDS, for several years Chief Clerk in the Post Office of this city, and afterwards City Comptroller, died on Monday night, at the Hospital of the Sisters of Charity. His health has been failing for many months, and he has been an inmate of the Hospital for several weeks past. But neither medical skill, nor kind and careful nursing, could arrest the progress of his disease; and he died, easily and calmly, just before midnight, Monday.

EMBEZZLEMENT BY A CLERK.—A young man named Frederick Bannasch, a clerk in the store of Delorme & Quentin, was arrested on Monday afternoon for robbing the money drawer of his employers of a large amount at different times. The *News* thus describes the manner in which he was detected and arrested:

The circumstances that led to his detection were these: Mr. Quentin needed some money to pay a small demand, and went to the till for the purpose of getting some, but found it empty. As he enquired of Banasch if he (B.) could lend him a dollar. He replied that he could not. One of the clerks remarked that there ought to be money in the drawer, as he, Bannasch, had just sold goods and taken a dollar bill, giving change therefor, and that the bill ought to be in the drawer.

Bannasch denied receiving the dollar, stating that he had given the customer the change and forgotten to take the dollar. This excited the suspicion of Mr. Quentin and his partner, who took Bannasch up stairs and taxed him with theft from the money drawer. Bannasch owned up that he had stolen from the drawer at different times, and offered them $50 to let him go. They refused to do this and sent for the police. As soon as the officers went up stairs, Perrigo watched Bannasch, who, while Beck went into another room with one of the firm, sat down on his trunk, and by some means secreted a large dirk knife, nearly a foot in length, under his sleeve and got up. They came down stairs, when Bannasch dashed towards the back door; Beck observing something secreted in his sleeve, grabbed his arm by the wrist and held the knife and took him by the collar. Bannasch made at him; Beck raised his club, when Perrigo got hold of him and the dirk was taken from him, and he was conveyed to the Station House.

On searching his trunk $253,03 was found there, which Bannasch voluntarily acknowledged that he had stolen by small sums from the money drawer of Delorme & Quentin.

GENERAL VIEW OF THE ANIMAL KINGDOM BY A. M. REDFIELD.—A chart, measuring five feet by four and a half. New York City and Hartford, Ct.; E. B. & E. C. Kellogg. This handsome engraved chart is an exhibition of the classification of the Animal Kingdom, by an arrangement of branching spaces divided off according to the classes, orders, families, &c. The four trunks of the radiates, mollusks, articulates, vertebrates, with their successive subdivisions sweep gracefully over the chart, without any fanciful shaping out of a tree, and in addition to the lettering of the branches, which is quite detailed there are well engraved figures of species in large numbers, making an exhibition of the Animal Kingdom of real value for class instruction.

The figures among the Mammals include half-a-dozen species of monkeys, fifteen or twenty of the carnivora, nearly as many of the ungulata or hoofed quadrupeds, and so on through all the groups in each of the sub-kingdoms. The plan is excellent, and is well carried out by its accomplished authoress. We could wish some small changes made in the classification, but the chart as it is, will be found of great assistance to the teacher, and should be in all the academies and higher schools of the land. It speaks to the eye, and more impressively than a volume of text.—*Silliman's Journal of Science, for January.*

MRS. MOZART.—This accomplished Vocalist announces her purpose of giving a Grand Concert at Albany Hall, on Friday evening. She will be assisted by Mr. MARER, Violinist, of this city, Mr. CURRIE, Pianist, of Chicago, and her husband, Mr. MOZART, who is a good basso.

Mrs. MOZART is no new adventurer in this path. For several years, as SOPHIA BOTHAMLY, she was the leading soprano singer in the old Handel and Hayda Society, of Boston. Mrs. M. is still quite young, being but 22 years of age, and her fresh, pure, well-trained mezzo-soprano voice is delicious to hear. Her lady-like deportment and winning ways make her a favorite wherever she goes, and we hope that her first appearance in Milwaukee will be welcomed by a large and appreciative audience.

HENRY J. NAZRO & Co.—HARDWARE.—The large, elegant and well filled Hardware Store of HENRY J. NAZRO & Co., is one of the Institutions of Milwaukee; and we rejoice to learn, from their advertisement in to-day's paper, as from other sources, that, having fairly weathered the financial storm, which, during the last few months, has wrecked so many heavy houses all over the Union, they are now shaking out a reef, or two, and making ready for a Spring cruise. Their stock is very large, carefully selected, and sold at the lowest prices. Country merchants and others, in need of anything in the hardware line, can have their wants supplied by calling in at NAZRO's Mammoth building, Nos. 121, 123, and 125 East Water street.

PARISHIONERS' VISIT.—The Parishioners and friends of the Rev. Mr. KEENE, of St. John's (Episcopal) Church in the Fifth Ward, propose to pay him a friendly visit *this* evening. Mr. KEENE is deservedly popular, in and out of his congregation. He is a good citizen, a faithful pastor, and a true Christian. We hope that his many good qualities will be called to mind, to-day, by all his friends, and that some tokens of this remembrance will be sent to him *to-night*. The laborer is worthy of his hire, and there is no more faithful, untiring laborer, in the Christian Vineyard, than Mr. KEENE.

CIRCUIT COURT.—In the Circuit Court, yesterday, the jury rendered a verdict of not guilty in the case of Philip Oelschlager on a charge of an assault with intent to kill.

In the case of the State against Gunther Ruppert, and Ernst G. Bock indicted for receiving or buying stolen goods, the verdict of the jury was also not guilty.

The case of the Wilmake brothers charged with robbing household goods belonging to an emigrant was continued to the next term.

The jury was discharged and the Court adjourned for the term yesterday. The next term commences a week from Monday.

THE MURDERER UNDERHILL ARRESTED!—We learned yesterday from Policeman Hauck, that a despatch had been received the day previous by the deputy Sheriff of Columbia Co., stating that the murderer, Alfred Underhill, who escaped from jail at Portage, on the 14th inst., had been arrested at New London, Ohio. The information was received in this city by the conductor on the La Crosse train from Portage, yesterday.

Underhill made his escape once before, but was recaptured after running at large for two years.

POLICE COURT.—In the police court yesterday, Mary Cornish was fined $10 for being disorderly; John Dewyre and John Lee, fined $2 each also for being disorderly.

Daniel Doody was examined on a charge of being disorderly and striking an officer, and fined $25 in default of which he was sent to jail for 30 days.

Owen McCuen, charged with being disorderly, case continued to to to-day for examination.

GREAT BARGAINS!—MACK BROTHERS, of the Milwaukee Saving's Store, 181 East Water st., announce their intention to sell off all their present large and desirable stock of goods, at great sacrifices, in order to make room for their Spring importations. Those who wish to secure good bargains, will give them a call.

ANOTHER ARRIVAL.—The schooner *Arabella*, Capt. RICHARDSON, from Peterson's Pier, came into our port yesterday. She is bound to Chicago, with a load of wood.

AUCTION.—Remember that Wall sells at auction this morning some good furniture. It is at the City Land Office, and will be sold low.

DIED.

In this city, January 25th, LEWIS SANDFORD, Esq., aged 75 years.

The funeral will take place from his late residence on Jackson street, on Wednesday, the 27th, at 1 o'clock P. M. The friends of the family are invited to attend.

In this city, on Monday, Jan. 25th, 1858, REBECCA GIRAUD, wife of Walker L. Bean, and daughter of Thomas Burlock, Esq., of Derby, Connecticut, aged 19 years, 1 month and 2 days.

The funeral will take place from the residence of Mrs. J. L. Bean, Wauksha, on Wednesday, Jan. 27th, 1858, at 11 o'clock. The friends of the family are respectfully invited to attend. jan26'58

Notice to Western Emigrants.

THERE will be a meeting of those interested in the Madison City Town and Land Co., on Saturday evening next, January 30th, at No. 8 Market Square, opposite the Post Office. An opportunity at that time will be offered to Mechanics, and others, who may wish to go to this point as actual settlers, and are not able to take the amount necessary to become a stockholder in the Company to buy one or more lots on reasonable terms. This is a chance unexpected and those who enter in it now, will have an opportunity of securing good homes in one of the richest valleys of the North-West, at a trifling cost, and on easy terms.

We understand that Messrs. Cummings & Goodrich, of the Badger Iron Works, of this city, are building a steam engine and Boiler for this point. Also that Mr. Paul has contracted for one hundred thousand feet of pine lumber to be delivered in St. Louis by the 20th of June, to be shipped from there to this point by way of Missouri river; and to facilitate in building as early as possible, the coming season. Capitalists seeking investments will do well by calling on Mr. PAUL, at the American, and examining his plans. He will leave in a short time for this point. Thirty-five shares in the Company have already been sold, leaving sixty-five yet in the hands of the proprietors. jan27'58d4t

To Brick Makers and Capitalists.

THE UNDERSIGNED would invite all interested parties to examine a working model of a BRICK MACHINE, which is superior to all others ever invented, as it is so much *cheaper, more portable,* and *so simple* as not to be liable to *get out of order.* Three men and one boy can make from 12 to 15,000 perfect Brick per day. It can be run with *less power* than any other. Two horses, or 2½ horse belt will work it with ease. It makes the brick directly from the bank, without tempering, and can make Brick all seasons of the year, without regard to weather. Circulars sent by addressing W. HUTCHINGS, Box 1099, Chicago, Ill. The model can be seen at 167 Randolph St., Chicago. Also, samples of Brick made by the machine.

LATEST NEWS!

BY MAGNETIC TELEGRAPH.

Thirty-Fifth Congress---First Session.

WASHINGTON, Jan. 25.

Mr. MASON, from the Committee on Foreign Relations, submitted a report on Central American affairs.

The report reviews at length the whole case, saying in conclusion: The law of 1764, equally with that of 1818, was founded in wise policy, to preserve the peace of the country and maintain amity and amicable relations with foreign States. It denounces its penalties only against those, whether citizens or foreigners, who in its jurisdiction abuse the protection and hospitalities of laws by secret and unlawful practices, to wage piratical war against nations with whom we are at peace, and in most cases dishonoring the American flag, used to shield them in their acts. Were such things tolerated, in would be to commit the peace of the country to every restless and turbulent adventurer who, unequal to or disdainful of the terms of peace, would find food for his ambition only in the license of the carnage, the rapine and ravages of war. It would take the affairs of Government, in our foreign intercourse at least, from the hands of those to whom they are committed by the constitution and laws, and leave them under control or at the pleasure of unknown and irresponsible agencies. The report concluded with the following resolutions.

1. *Resolved*, That no further provisions of law are necessary to confer authority on the President to cause arrests, and seizures to be made on the high seas, for offences committed against the neutrality laws of 1818. The committee find that said power is necessarily implied by the terms of the 5th section of that act.

2. *Resolved*, That the place where William Walker was arrested, being without the jurisdiction of the United States, the arrest was without warrant of law; but in view of the circumstances attending it, and its result in taking away from a territory in a state of amity with the United States, American citizens who were there with hostile intent, it may not call for further censure, as it might hereafter be drawn to precedent, if suffered to pass without remark. The committee, inasmuch as the neutrality law may be made more efficient by some proper provision for bringing offenders against it for trial, who after arrest as sea are brought back to the United States, report a bill making it the duty of the commanding officer making such arrest, to bring or send the offenders, together with the cargo of the expedition to the port whence

MILWAUKEE:

WEDNESDAY MORNING, JAN'Y 27

The Legislature.

Those of our citizens who have visited Madison during the past week, have all returned with very favorable impressions of the Legislature.—There is, in each House, a large proportion of new men, with enough of old members to keep the wheels of Legislation in regular motion.—Speaker LOVELL presides over the Assembly with conceded ability and impartiality. Lieut Governor CAMPBELL, who presides in the Senate, also acquits himself well. The subordinate officers in each House seem to be well qualified for their several posts. There is an evident desire and determination, on all sides, to make this a working Session, and as brief as the public interest will warrant.

Gov. RANDALL is making his mark. His message has been well received everywhere, and its recommendations are widely and generally approved. It is clear that he understands perfectly well what he is about; that he has a resolute purpose to do his duty, fearlessly and faithfully and that his administration bids fair to be a popular and successful one.

State Stock Bank of Wisconsin.

We understand that there is such an institution operating at Marshall, in this State. The Marshall *Democratic Expounder* makes the following notice of the concern. All the names mentioned are residents of Marshall, where the notes are signed and put into circulation:

(From the Marshall Dem. Expounder, 24th.)

THE STATE STOCK BANK OF WISCONSIN.—We have been shown a beautifully executed bill, bearing the above title, and signed by H. O. Pratt, Cashier, and J. Sibley, President. The laws of Wisconsin require the deposit of security similar, we believe, to the laws of the State of New York. We are not in the habit of pulling banks, bankers, or bank bills, especially in dubious times like these, but we walk out of our custom in this respect, to say that the name of Joseph Sibley is sufficient, in this community, and in every community where he is known, to give character to any institution with which his name is financially connected. His probity, his strict sense of justice, his personal honor, added to his pecuniary ability, give assurance that one banking institution in the West, (if we can judge anything of character,) is based upon an honest footing, and will be conducted on honest principles. If this is not so, then we have mistaken vastly the character of Joseph Sibley.

We find the above in the Detroit Daily *Advertiser*, of Saturday last, January 23d. There is no such Bank as "the State Stock Bank of Wisconsin" organized under the laws of this State. At least none such appears in the Comptroller's Report of January 4th. Nor do we see how "the laws of Wisconsin" can very well apply to a Bank organized and operating at Marshall, Michigan.

SENATOR DOOLITTLE.—The special correspondent of the N. Y. *Tribune*, under date of Washington, Jan. 21st, says:

Senator Doolittle's speech was a thorough and conclusive investigation of the power of the President under statute and international law, to pursue and take Walker. He completely riddled the arguments advanced on the other side. Mr. Brown virtually gave up his evident notion to make a long speech, in consequence of the unanswerable character of Doolittle's exposition of the law.

MONCHAUSENISM.—The following paragraph which has been going the rounds of the papers is about as nearly equal to Baron Munchausen's story as anything we have heard of late.

"About three o'clock on the morning of the 15th inst., two young men were riding from Corinth to East Corinth, Vt., in a light sleigh, to which was attached a young mare. The mare, becoming frightened, ran, and getting loose from the sleigh, diverged from the road, and broke into the house of Mr. N. D. Blake, and passed through three doors before stopping. She jumped over one bed, in which was Mr. Blake and a child, breaking it down, then over the other bed, in which was Mrs. B. and two children, overcetting in her course the light-stand and extinguishing the light. She then broke down a crib in the other corner. Mr. Blake drew his wife and two child from their bedstead, which had been demolished, carried them into another room, and struck a light. It was not until his return that the cause of the accident was ascertained."

And here is another which we clip from an exchange under the head of "All sorts of paragraphs," that also admits of doubt.

"A most remarkable case of voluntary starvation is reported by the keeper of St. Lawrence County, N. Y. Poor House. It appears that some time since, an aged man who had been for some time an inmate of the Poor House, refused to take food, saying he had made a vow to his God never to eat again. From that time no threats or solicitations could induce him to eat, and he lived in that state sixty-five days and twelve hours, when he died."

CORN AS FUEL.—At Kaukakee, Ill., a lawyer burns corn in the car in his stove, finding it cheaper at 25 cents, per 100 lbs., than coal at 30 cents for the same weight.

ANOTHER SHOOTING MATCH.—John Travis, the noted pistol shooter, has accepted a challenge from James W. Wales, of Louisville, Ky., to shoot a match for $1,000; the number of shots to be twenty, of which Wales is to split five balls out of ten on a knife, at a distance of thirty yards. Travis is to split one more ball than Wales.

DECISION OF THE KENTUCKY COURT OF APPEALS ON THE NATURALIZATION LAWS.—It will be remembered that Judge Goodloe of the Fayette Circuit Court, of Kentucky, decided in the case of Morgan vs. Dudley, that naturalization by the State Courts was not valid. The case was carried up, and the Court of Appeals has reversed the decision.

The following propositions were unanimously decided by the Court:

1. A voter may sue the judges of election for illegally and corruptly refusing to permit him to vote.

2. Naturalization in a State Court in pursuance of the act of Congress, is valid, and confers citizenship.

3. That the Lexington City Court is authorized by the act of Congress to naturalize aliens.

4. That according to the Constitution of Kentucky a naturalized citizen having the other qualifications as a voter is authorized to vote as soon as naturalized.

CHAPLAIN ON THE ILLINOIS CENTRAL R. R.—There was something said a few months ago about the appointment of a chaplain on the Illinois Central Railroad, but everybody considered it a hoax. It seems, however, that there is really such an office, faithfully filled by the Rev. J. W. Osborn. At a recent ministerial meeting he gave a sketch of the results of his labors along that line of road. Schools have been established at all the stations, and are in a flourishing condition, and the means of much good. Bible classes are large and numerous. Some of the children walk several miles to the schools. So far as the road is concerned, it is a wise business operation by which the prosperity of the settlements along the road is advanced, and the lands of the company rendered more attractive to the most desirable class of settlers.—*Palo Transcript.*

AN UGLY LOT.—One hundred and fifty seven unhappy married people have applied for divorce at Cincinnati up to the 8th instant. A reporter says: Early in the morning the court-room was thronged with those ill-matched pairs, who looked anything else but lovingly towards one another. Frowns disfigured the faces where smiles should have been, and those who should have walked hand-in-hand adown the pathway of life until they reached the shores of eternity, took seats as removed from each other as possible.—They thought it contaminating even to sit in the same room together, and whenever their eyes chanced to meet they flashed—not forth the fire of love, but that of hate, deepland lasting.

CORN AS FUEL.—At Kaukakee, Ill., a lawyer burns corn in the car in his stove, finding it cheaper at 25 cents, per 100 lbs., than coal at 30 cents for the same weight.

ANOTHER SHOOTING MATCH.—John Travis, the noted pistol shooter, has accepted a challenge from James W. Wales, of Louisville, Ky., to shoot a match for $1,000; the number of shots to be twenty, of which Wales is to split five balls out of ten on a knife, at a distance of thirty yards. Travis is to split one more ball than Wales.

Through to Lake Michigan—Detroit & Milwaukee R. R.

We understand the long pending negotiations of this Company for the means to complete the line to Lake Michigan, and thus open to our beautiful city, a new and shorter route to the great Northwest, which centres at Milwaukee, were completed yesterday. The Board of Directors were recognized in accordance with the terms of the negotiation, and now consists of the following gentlemen, viz:

Robert Gill, Esq., London, England.
William Govan, Esq., Glasgow, Scotland.
Charles J. Bridger, Esq., Thomas Reynolds, Esq., Hamilton, C. W.
John Young, Esq., Henry C. R. Boocher, Esq., London C. W.
Henry N. Walker, Esq., N. P. Stewart, Esq., E. A. Brush, Esq., Detroit.

At a subsequent meeting of the Board, Charles J. Brydges, Esq., was elected President, Thomas Reynolds, Vice President, and C. C. Trowbridge, Esq., Secretary.

We are informed that the work on the line will be speedily resumed, and it is expected that the road will be opened to Grand Rapids by the 1st of April, and to Lake Michigan early in the summer. We cannot but congratulate the people living along the line of this important thoroughfare, upon the certain completion of this road. Too much praise cannot be awarded to the late Board, who have, for four years, pushed forward this work against all obstacles.

The building of this Railway has added many millions to this State. It is by far the most important, opening as it does the fertile valleys of the Shiawassee, Maple, Lookinglass and Grand Rivers. In due time, under the management of the present Board, we hope to see such encouragement given to various works contemplated for opening the northern portion of our State as to secure to Michigan the best system of railways of any State in the Union.

It will be seen that a majority of the present Board are the gentlemen who have so ably and successfully managed the Great Western Railway of Canada—a road which is now and always has been a favorite with the citizens of Detroit and Michigan.—*Detroit Tribune*, Jan. 23.

Our citizens will share in the gratification expressed by the *Tribune* at the prospect of the speedy completion of the Detroit and Milwaukee Railway. There seems to be no doubt that it will be finished to Lake Michigan and opened for business, within the next five, or six months. High as are the anticipations of our citizens, as to the favorable influence of this new thoroughfare upon the fortunes of Milwaukee, we believe that the reality will far surpass them.

Matters at Washington.

Correspondence N. Y. Express.

WASHINGTON, Jan. 21.

PAULDING AND WALKER.

Mr. Doolittle made an eloquent, conservative and patriotic speech in behalf of Commodore Paulding. Walker was spoken of without denunciation, but in a view of his invasion into Sonora, and twice into Nicaragua, a case was made most adverse to the marauder. The U. S. Government had twice saved him from inevitable death, though now denounced for what it had done. On the first surrender of Walker in Nicaragua it was held that he yielded all power over the territory, and, therefore, held no other rightful position in the territory. The speech proved a very complete argument and will not be easy to answer.

REPORTS FROM COMMITTEE.

The vote in the House to day indicates certain success to the Lake Harbor Improvement Bill, and of a River Bill also, it is thought.

UTAH TERRITORY.

The Bill to increase the Army revives the topic of the action of the Mormons. The Delegate from that territory feels much aggrieved at what he calls the harsh treatment of the United States towards the Mormons. He asks the Government to send out a commission instead of an Army, and declares that his constituents are much misrepresented by the army and the officers who have been sent out.

It is also declared that the Mormons will leave Utah quietly, that they wish to and mean to get beyond the jurisdiction of the U. S.—that they will be glad to get some island in the Pacific, or any pieces of territory of their own on which to establish a government of their own. If the government will pay them for improvements made in Utah, their representative here says, they will depart forthwith. But this may be the policy of delay, which is both more safe and convenient to practice than any other just now. The President would act upon this plan at once if faith could be placed in the peace propositions which have been made. But judging of the future by the past who can have faith in the future.

GOVERNMENT DEFICIENCIES.

It is reported that the deficiencies in the War Department now exceed $8,000,000—an enormous and unparalled sum for a time of peace. The five new Regiments will add millions to this, and nearly $1,500,000 in the item of rations alone.—There are other deficiences, such as a round million for printing, and miscellaneous items in every branch of the public service. All this and Treasury notes at a discount has an ugly look for the government. M. D. C.

THE WEATHER—WHO COMPLAINS OF IT?—The weather we are now enjoying beats more, recommplaces to the winters of the "sunny South" than those of our more rigid northern climate. The buds swell and shoot forth from the trees with all the freshness of spring-time, flowers bloom in the gardens, and the air is warm and genial. All seem to enjoy the mildness of this unusual winter. But there are some who would wish it otherwise, who would rejoice in a frigid atmosphere, with all its concomitants of ice and snow, thick overcoats, and rousing fires. These are disposed to complain, for cold weather is to them as money, meat and drink. The winter is their harvest season, and fat purses grow lean when this is unfavorable. The fruit-grower, who sees his trees unseasonably budding into new life, is apprehensive of future frosts that may blast the buds and destroy the expected crops. Ice-harvesters look serious, and turn their eyes wistfully towards that liquid material which they would gladly fashion into blocks of crystal.—Dealers in skates, sleds and sleighs, and vendors of rubber shoes and high-top boots look anxiously at their well filled shelves and lofts, and regret their ill-timed investments. The clothing houses are equally at fault, and so are the dealers in blankets and bed-comforters, and in furs and buffalo robes. Operators in anthracite look black, not from handling their smutty comodity, but because they cannot handle more of it. Stockholders in ice-boats and ice-breakers, who expected to realize fortunes this winter, will now sell their stock below par. Then, too, there are thousands of men who are annually employed in ice-cutting and harvesting, and laborers who shovel snow from the sidewalks, &c., who are now idle for lack of their customary employment. All these are disposed to grumble at the warm weather, and would hail the advent of the frost-king with joy. But the poor will not complain.—*N. Y. Journal of Commerce.*

LARGE AND IMPORTANT SALE OF DOMESTIC COTTON GOODS.—The public sale of Domestic Cotton Goods, by Messrs. Haggerty & Co., which has excited so much interest in the Dry Goods trade came off to-day. The goods were sold per order of J. C. Howe & Co., at their warerooms, No. 2 and 4 College Place.

Long before the appointed time, the rooms were crowded with buyers, examining the goods and in fact the sale seemed to have attracted more attention from the trade than any previous sale, for a long time past. The house was a splendid one. The spacious warerooms of Messrs. Howe & Co., were literally thronged with buyers. The Company was composed of many out of town jobbers—prominently among whom we noticed: Wm. A. Jones & Co., of Philadelphia; J. Sea & Co., of Louisville; Edwards, Nichols & Co., Jewett, Tibbetts & Co., Sweetser, Gookin & Co., of Boston, and many others. A part of each style of goods are sold in Boston and Philadelphia, so that buyers at the East, West and South obtain a great saving in the item of freight, &c. The sale, it was announced upon the opening, would be conducted strictly in accordance with the terms advertised; and so it was, apparently to the entire satisfaction of all present. Of the class of buyers present, it is needless for us to make any comments. Their names below will speak for themselves. The style and finish of the goods are so well known in this and other markets, that it is also needless for us to make any remarks in regard to them.

The company was a very spirited one, and the bidding brisk—the entire catalogue of two thousand packages being sold in about three quarters of an hour. The prices realized were full as well and we think better than could be expected under the circumstances. They showed a very decided and perceptible advance on the previous public sale of the same.—*New York Express, Jan. 22.*

PATENTS ISSUED.—Among the list of Patents issued at Washington during the week ending the 19th inst., were the following to parties in this State:

Stephen D. Carpenter, of Madison, Wis.—For improved application of electro magnetic batteries to car brakes.

Luther E. Porter, of Lake Mills, Wis.—For improved double sewing machines.

☞ Dr. Eads, late School Superintendent of the State of Iowa, has been found to be in default to the school fund about forty thousand dollars.

The Late Senator Rusk—Eulogy by Gov. Seward.

IN SENATE, Jan. 19, '58.

Mr. President, in funeral ceremonies it is not any of those who were the companions at the hearthstone of the dead, but some one who sustained only public relations to him that is expected to pronounce the customary panegyric. On this ground, I should claim the privilege of being silent on this occasion if I thought that my connection with the late Mr. Rusk was slightly understood. It is true that I was not his kinsman, nor his neighbor, nor his political associate. I was, nevertheless, attached to him by bonds strong as the charity that consecrates even those relations. But they were peculiar bonds. I was his captive, an adversary overpowered, overcome, and conquered by his own generosity in my first encounter with him here in this field of sectional strife, released on parole, a prisoner at large, but devoted to him by gratitude for the period of my whole life. In that character I follow the hearse which is bearing him away from our sight. Since I must speak, nature shall have its way, and my utterances, proceeding not from study but from feeling, shall toll less of his great worth than of my own great loss.

All the world knows that Thomas J. Rusk was brave and heroic, and yet prudent and patient in the camp and in the field. These were the virtues which distinguished him here, and they were chiefly the means of his success in the Senate. He knew no fear of opposition, raised by either prejudice or passion. He undertook nothing without first balancing all the chances of success, and gathering in and combining all the available agencies necessary to secure it; and he maintained perfect equanimity until all resistance was overcome. As he was without fear, so he was also free from jealousy and from envy.—Thus happily constituted, he tolerated in all others the same fidelity to their own characters, and the same loyalty to the interests they represented which he bore to his own instincts and to the interests confided to his care. He despised art, trick and cunning, and advanced always directly towards his appointed end. If he was sometimes irritated at seeming injustice or misapprehension, he corrected his error without even waiting for complaint or explanation. I doubt whether any setting sun, during his whole life, ever witnessed his anger.

As he was manifestly unassuming and unaffected, so for aught that I could ever see or hear, he was altogether unambitious. He practiced no flattery. I am sure that no sensible man offered him adulation. He was not, in any degree, sectional in his policy; but he aimed always at the advancement and aggrandizement of his whole country. Hence, fortifications, improvements of roads, rivers, and lake navigation, everywhere within our national jurisdiction, and explorations and extended navigation, and telegraph communication with all accessible regions without it, in every part of the globe—these were the achievements he made, these are the monuments of wisdom and patriotism which he has left among us. It was in the studies connected with these measures that my acquaintance with him ripened into an ardent friendship.—Each of us deplored his ignorance of the regions concerning which we were legislating, and as they seemed to us to be growing world-wide, we spoke, half seriously and half imaginatively, of going together to enlarge our knowledge, in a voyage around the world. But it was a thing easier to conceive than to execute; and though it might never be executed, it was still pleasant to contemplate.

I saw him last at the late special session of the Senate, called to inaugurate a new administration. I demanded of him that he should cause one personal and political friend of mine, but who was inoffensive, and a competent and faithful officer, to be retained in a subordinate post under the new Administration. He promptly responded, pleasantly adding, that he would make the granting of my request a condition of his own loyalty to the new powers. We separated. He went to his own sunny land, and I to my home under the genial north star.

On the last day of August, I was re-entering the port of Quebec, after a voyage of thirty days, in search of health along the inhospitable coasts of Labrador. The sympathies of home and country, long suppressed, were revived within me, and I was even meditating new labors and studies here, when the pilot, who came on board, handed me a newspaper which announced the death of the Senator from Texas. My first emotions were those of sadness and sorrow over the bereavement of a personal friend. When these had had their time, I tried to divine why he among all the associates whom I honored, esteemed, and loved here, was thus suddenly withdrawn from the scene of our common labors; he, for whom I thought higher honors were preparing, and a fuller wreath was being woven; he, who seemed to me to stand a monument against which the waves of faction must break, if ever they should be stirred up, from their lowest depths; he, in short, with whom I thought I might do so much, and without whom I could do almost nothing, to magnify and honor the Republic. That question I could not solve. I cannot solve it now. It is only another occasion in which I am required to trust, where I am not permitted to know, the ways of the Great Disposer.

Mr. President, the teeming thoughts of this solemn hour bring up once more before me the manly form and beaming countenance of my friend, though it is but for that formal parting which has, until now, been denied me. Farewell noble Patriot; farewell heroic soldier; faithful statesman; generous friend; loved by no means the least, although among the last secured. I little thought that our whisperings about travels over earth's fairest lands and broadest seas, were only the suggestions of our inward natures to prepare for the sad journey that leads through the gates of death. I do not doubt that for yourself, death is gain, since the event was appointed by Him who doeth all things well. It is best for me also, for it loosens another one of the bonds that bind me to the earth, divests the common fate of one more of its terrors, and creates, through the hope of re-union, another aspiration for a better life beyond the grave.

STUFFED TO DEATH, WITH PLUMB PUDDING.—An English newspaper gives the following instance of embracing a rare chance too eagerly and dying thereby:

On Wednesday, Mr. Wakely held an inquest at the Elephant and Castle, Camdentown, on Frederick Harding, late an inmate of the St. Pancras workhouse, aged about sixty. On Saturday, the deceased was devouring a large quantity of cold plumb pudding, and after he had eaten some pounds of the pudding and was in the act of swallowing another large piece, he fell suddenly forward in an insensible state to the ground. Mr. William Coster, the senior medical officer, was sent for, but before he came the man expired. Mr. Coster upon making a post mortem examination, observed some three or four pounds of plum pudding in the deceased's stomach, as also a quantity in his respiratory organs; and, from the condition of the brain, it would seem that the wretched man had been seized with a sudden fit of apoplexy. On the day before (Christmas day) the inmates of the workhouse were well regaled with good fare in the shape of roast beef and plumb pudding, and the deceased must have managed to have received more than his own share. The jury returned a verdict of "accidental death by suffocation."

EXCITEMENT IN A COURT ROOM.—In the Police Court in Brooklyn, N. Y., one day last week, it was discovered that a man who had been tried and convicted for beating his wife, and was sitting with a number of other prisoners awaiting sentence, had the small-pox, which was breaking out with great virulence all over his face. A general stampede at once commenced, while those not aware of the cause of the commotion imagined the building on fire, and shouted lustily. The clerk, discovering the trouble turned ghastly white, and then made a sumerset out of the window, at the imminent risk of breaking his neck. The Judge, thinking the building was falling, went after the clerk in the most undignified manner, while the deputy sheriff and other officers climbed the posts and took refuge among the rafters. The sight, says the N. Y. *Express*, was laughable in the extreme. The poor sick man was forced out of the door and bidden to clear away, and never to return. As no one would venture back, the Court was pronounced to stand adjourned.

A NICE FAMILY, AND ALL IN PRISON.—The Cincinnati *Gazette* of the 14th Jan. says:

Yesterday morning, a young girl about 17 years of age, named Ann Kane, was brought before the Police Court on a charge of disorderly conduct, and was sentenced to the House of Refuge until she is of age. In passing sentence, Judge Pruden remarked that she was the last of the family at large; that the father was now confined in the Penitentiary for life, on a charge of killing a man; that two sisters older than the prisoner, were in the City Prison, where they had been several times, although quite young in years; and that a still younger brother and sister were in the House of Refuge; and now the last of the family would be sent to keep them company. On leaving the court room, Ann used the most insulting language to the Court, and on being taken below, went into the most violent paroxysm of anger, requiring the efforts of several officers to control her. On learning the fact, Judge Pruden sentenced her to ten days in the dungeon, on bread and water, in hopes to reduce her to subjection, and then to be transferred to the House of Refuge. A father and five children spending their lives in prison, is indeed a sad spectacle.

THE SEMINOLE WAR.—It is said that three Seminoles have been killed in Florida by our soldiers during a two years' war, and that they cost about $800,000 apiece.

TRAGEDY IN KENTUCKY.—I have just learned of a terrible tragedy which occurred in Marion Co. Ky., on Thursday.

Mr. Van Cleave, a wealthy farmer living in that county, flogged his negro woman severely, when the husband of the woman (also a slave of Mr. Van Cleave) became very angry, and used insulting language to his master, whereupon the master ordered him to be tied up and whipped also, but while they were taking off his coat to tie him, he drew a butcher knife, and killed Henry Van Cleave, the son, on the spot, and mortally wounded Daniel Thompson.

The negro has been arrested, and is now in jail. The officers had great difficulty in restraining the people from taking the negro and hanging him on the spot.—*Cincinnati Gazette*, 22d.

THE SEVEN WISE MEN.—In Europe, there is a somewhat extended secret order called the Brotherhood of the seven Wise Men. So far as divulged, it is understood that the principles of the order are liberal; its objects are the promotion of the freedom of all mankind, the improvement of morals, and the support and relief of distressed members. The Wise men claim that their order was established five hundred years before the birth of Christ; the brotherhood, however, has not made much noise in the world. It has for some years been established in the United States, and under a charter from the Supreme Conclave of the United States a subordinate conclave has been formed in this city called the Franklin Conclave.—*New York paper.*

More Lodes Discovered.

We learn that last week another very valuable discovery of Lead Mineral was made on the old Turner and Snyder lot, near Sinsinawa Mounds by Mr. Van Vleck of Jamestown, Wis. The body of mineral appears to be very large from the examination made.

We also learn that Meyer and Bohr; of this city, have discovered a valuable show on the land of Mr. S. B. Herron, near Galena.—*Galena Gazette, Jan. 23.*

☞ The most wonderful thing now before the public is Prof. De Grath's Electric Oil, of Philadelphia. Nothing before known has cured Palsy, Rheumatism, Neuralgia, Pains and Soreness of the worst kind in so short a time as to seem almost impossible. Messrs. Barnes and Park, of N. Y., write that this Oil has cured Palsy and many otherwises. They have sold $1,000 worth in a short time. Mr. Seth S. Hance, of Baltimore, who has sold above $2,000 worth in a very short time, writes of wonderful cures of Palsy, Rheumatism, &c., cases unparalleled. Many other leading Dealers write the same thing. This Oil is magical to relieve pain, compared with other medicines, and cannot be adulterated like Bitters and Syrups, which everybody knows are almost all water. The Electric Oil is made of expensive materials, and is scientifically compounded. Physicians are now using and recommending De Grath's Electric Oil, from the only Office. No. 39 South Eighth st., between Chestnut and Walnut, near the great Masonic Temple.—A regular Doctor in attendance. Advice gratis.

TO THE MILLION.—Prof. Wood, of St. Louis, has, after years of deep study and untiring research, succeeded in presenting to the public an article superior to any now in use, and indeed it is truly a wonderful discovery—we advert to his Hair Restorative: the only article that has been completely successful in cheating age of its grey locks, removing dandruff, itchiness, scrofula, &c. It restores the grey-headed to more than the original beauty; adds new lustre to the locks already luxuriant; having the effect on coarse, harsh hair; to render it glossy and wavy; fastens permanently hair that is loose or falling, and many other qualities which will become known as soon as used.

The pride of mankind is singularly developed in the keeping and arrangement of the hair; perhaps from the fact that it is the only portion of the human body that we can train in any way we choose; how important, then, having this portion left to our care, that we should use all the means science has placed in our hands to render it beautiful and permanent. If you would have beautiful hair, glossy hair, hair with its natural color elegantly preserved to extreme old age, don't fail to use Prof. Wood's Hair Restorative.—*Daily, Iowa State Gazette.*

The Mountain Torrent.

BY CHARLES MACKAY.

Fair streamlet running
Where violets grow,
Under the elm trees,
Murmuring low;
Ripp ling gently
Amid the grass;
I have a fancy,
As I pass:

I have a fancy as I see
The trailing willows kissing thee;
As I behold the daisies plod,
The harebell rocking on the sod;
The sheep that feed upon thy brink;
The birds that stoop thy waves to drink;
Thy blooms that tempt the bee to stray,
And all the life that thanks thy way—

I deem thou flowest
Through grassy meads,
To show the beauty
Of gentle deeds;
To show how happy
The world might be,
If man, observant,
Copied thee!

To show how small a stream might pour
Verdure and bounty on either shore;
To teach what humble men might do,
If their lives were pure and their hearts were true;
And what a wealth they might dispense,
In modest, calm beneficence;
Marking their course in their quiet thine,
By way-side flowers of love divine.

And streamlet, rushing,
With foam and spray,
Over the boulders
In thy way,
Leaping and rolling
From rock to wave,
A vain, impetuous,
Onward wave:

I have a fancy as I mark
Thy fall o'er the precipices dark;
As I behold thy power revealed,
And hear thy voice like thunder peal'd;
I have a fancy as I sit
Under the rocks where to thy rainbows lit,
And listen to thy roar and swell,
Sonorous, irresistible;

I deem thou leapest
Adown the rocks,
To show how little
Are fortune's shocks,
To him reliant,
Who knows the strength,
And measures evil—
Breadth and length.

I deem thou flowest to teach us still,
That perseverance conquers ill;
That no obstruction small or great,
Can daunt the soul that dares its fate;
That calm true hearts in perils hear
Confront it with superior power,
More at thy side, I sit and dream
These fancies twain, sweet mountain stream.

Making Sausages out of Dog Meat.

From the N. Y. Tribune.

Yesterday afternoon Jefferson Market Police Court presented a curious scene—the room being crowded with spectators anxious to witness the disposition of two Germans who were caught in the act of cutting up the carcass of a large dog. The passage through the streets of three officers, having in custody two Germans who were bearing a large wash-tub filled with spurious looking meat, attracted an immense crowd. The facts attending the discovery and arrest of the parties charged with manufacturing sausages out of dogs meat are as follows: Yesterday morning a daughter of one of the Twenty-second Precinct officers, while sitting at a rear window of her residence in Forty-eighth street, near the Eleventh avenue, was disturbed by the yelping of a dog, and upon looking out she saw a man in the opposite yard with a small ax engaged in killing a large dog.—The man beat the dog upon the head with an ax until the animal was dead. They then hung up the carcass and took off the skin, after which they carried the body and skin to a rear room on the second floor. Here they proceeded to cut up the body and pack it away in a wash-tub, while a woman, the wife of one of the men, set about cleaning the entrails with a view of using them to stuff sausage meat in. The young woman suspecting something wrong hastened to the street, and meeting Officer John McDougal of the Twenty-second Precinct, told him of what she had seen. The officer forthwith procured the assistance of Officers Casey and Tompkins, and entered the house, where they found the two men named Francis Miller and Andre Schweizer engaged in cutting up and packing away in a wash-tub the carcass of a dog, a woman, the wife of Miller, being at work cleaning a quantity of entrails. In another room in a barrel the officers found a quantity of sausages. Everything pertaining to the unfortunate canine was found in the room and placed in the tub. The parties were then arrested, and with the tub, conveyed to the Jefferson Market Police Court.

Miller, when arraigned before Justice Kelly, said: I vas sick und mein tocter told me to get some tog vat und dake vor mein cough. I vouldn't kill ein tog for $100—if I vould you can my throat from ear to ear. I pought a pig some time ago und paid ten tollars und thirty cents vor im, und as I has a large family or chilcer, I make mein own sausges—I never sell em to no one. I never kill a tog before, und I pought dis one of Schweizer for six skillings; he vanted a tollar and I vouldn't give it to im. De tocter told me to take tog vat, und I vas doo poor do pay em at de reg sthore; I pought a pound mr an a half woman.

Schweizer said that he sold the dog to Miller and engaged to kill the animal for him and help him put it down.

Justice Kelly decided to hold the accused to bail in the sum of $1,000. Two of Miller's neighbors became surety. The sureties protested against the matter; they said that he only killed the dog for his fat and did not make sausages of the meat. A butcher who was in the Court-room examined the sausages and said they contained dog's blood. In the tub was a string of a dozen or more sausages (Bologna size,) the haunches of the dog, spare-ribs, four paws, hide, head with tongue hanging out, and a pitcher of fat—all of which presented a disgusting appearance. The bottom of the tub was covered with blood.

Miller, it seems purchased the dog of Schweizer for six shillings, although the owner wanted $1. For the money so paid he was also to kill the animal and assist in dressing his carcass, which work the men were engaged in when apprehended. The tub with its contents was sent to the Rev. Dr. Warren, Police Property Clerk, to be held as evidence against the accused. Schweizer was discharged, there being no evidence against him.

Miller is a large man, with big whiskers, and presents the appearance of suffering from pulmonary disease. Both men were smeared with blood and looked as if they had been hard at work in a slaughter-house.

CALEB WALL'S ADV'TS
CITY AUCTION ROOM.

City Auction Room.

I CAVE NOTICE through our papers last week, that I held a large stock of Dry Goods from N. York, from Sixth Avenue, No. 620, corner of Twenty-third St. The goods are all from New York, and no other place; and as regards the goods, there are not many (nasty ones) to complain that I am injuring the trade by selling goods so low. I would kindly say to those merchants that the goods are all paid for, and if they will come and purchase them of me at a reasonal price, I will give them credit, provided they can give me good paper, endorsed six and twelve months; or I will sell the entire stock out, which amounts to twenty thousand dollars, on the following terms: One-fourth cash in three months—and the balance, one, two or three years, with seven per cent. interest, secured by a mortgage on property in our city. But I shall continue to retail the goods until they are all sold, and I would say to all of our citizens to go to Caleb Wall's for bargains. There is every kind of goods you want at thirty per cent less than ever sold in this city before. Mr. Ayers has the entire charge of the said goods. I attend to all auction business at the old corner, and will give it that strict attention I always have done. Any one having stocks of goods to sell, I am ready at all times to purchase the same. Call on me.
dec8 CALEB WALL, City Auctioneer.

City Auction Room.

I WANT to purchase twenty thousand to thirty thousand dollars worth of Dry Goods, in the following way: One-half cash, balance in city property, or I will pay all cash if I can agree on prices; or I will exchange good Bonds and Mortgages, or Railroad Stocks, or school lands. Any one who is sick of trade, and wishes to go West, will find me at the store, call on me and I will buy you out. My object is to do good trade, and keep myself at the same time. Or, if any one wants to sell his stock of Goods at auction, I will advance him from one-fourth to three-fourths its worth on said Goods; I will advance on all kinds of Goods, Furniture, &c., &c., but said Goods will be sold in ten days after the advance, or the parties can, if they wish, redeem by paying the Commission. All I want is to make money out of money, and keep the balance a rolling. I also want it understood that I am ready to do all auction business entrusted to my care. Oh, I would also say that the great stock of Goods which is now selling on the west side of the river, at half price, that I have concluded to keep the store open for thirty days longer. The crowd is so great and Goods so cheap that I think it my duty to give all a chance to get what they want. Recollect it is the same room formerly occupied by J. L. Pierce, on west side of the river. dec22 CALEB WALL.

City Auction Room.

ANOTHER STOCK OF GOODS arrived, in all from New York. I have now, I think, the largest and most complete assortment of Dry Goods, over at the corner store, where J. L. Pierce formerly kept, on the west side of the River. The said Goods are going off 50 per cent. less than cost. Great crowds every day.—Twenty five thousand dollars worth of Goods, everything you can think of. Ten clerks ready to wait on every person. A chance. CALEB WALL

City Auction Room.

I HAVE, left in my care, a superior Family Horse, which can be recommended, and will be sold at a great bargain to some one. The owner of said horse is going to Oshkosh for six or eight months. This is the reason said horse is sold. It will be sold on six months time if desired. dec29 CALEB WALL.

LESSONS IN
Foreign Languages.
MR. AND MRS. L. S. R. DE CHRETY, from Paris, for the last few years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.
Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation. Mr. De Chrey furnishing books of the best French authors. Those too wishing to learn vocal music in either of those languages, will find a competent music teacher in the establishment.
The hours of instruction will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M.. And in the evening from half past 6 to 9, for conversation.
Mr. De Chrey will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, acquire strength in their limbs and find an agreeable recreation.
Mr. De Grey will also form similar classes for children, from 10 to 15 years old, at his house, or office, as parents may prefer. Parents and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.
The continued patronage of the public is respectfully solicited.

To MUSICIANS.—Mr. De Chrey will take charge of French correspondence with the principal cities of France and will procure all Price Currents that they may want.

STATE OF WISCONSIN, CIRCUIT COURT, MILWAUKEE COUNTY.
Hiram A. Tucker, Walter S. Gurnee, Hamilton N. Dox and William Ruxton, against Hiram Niles and Henry B. Kinn, } EXECUTION.
BY VIRTUE of an execution issued in the above entitled action, to me directed and delivered, against the goods, chattels and real estate of Hiram Niles and Henry B. Kinn, I shall expose for sale and sell at public auction, at the Court House in the city of Milwaukee, on Saturday, the 27th day of February, 1858, at the hour of 2 P. M. of that day, the following described premises, and all the right, title and interest which the said defendants, or either of them, had in and to said land on the 9th day of September, 1857, at 7,20 o'clock P. M., to-wit: at the date of seizure of said land, by virtue of a certain warrant of attachment heretofore issued in this action, to-wit:
The undivided half of the South-East quarter of Section eight, (
